

INTEGRAfit

Quantitative HPD Fit Testing

ABOUT US.

Workplace INTEGRA is a full-service hearing conservation company that has all the tools to help you maintain compliance. From our suite of hearing conservation software, including INTEGRAfit, to our fleet of vans that can provide OSHA-compliant hearing tests over most of the United States, our team of professionals stands ready to serve.

ARE YOU PROVIDING ADEQUATE HEARING PROTECTION?

INTEGRAfit is a software solution for the measurement of noise reduction provided by hearing protection devices as the worker actually wears his or her earplugs.

KNOW THEIR PAR.

INTEGRAfit provides a simple, effective, and fast method of calculating each employees' PAR (Personal Attenuation Rating).

PAR lets you know how much hearing protection your employees are actually receiving compared to the NRR of HPD's.

PERFORMANCE

Calculate an employee's PAR in as little as 5 minutes.

INTUITIVE UI

iOS based software that is easy to use and takes little instruction to get accurate results.

PORTABLE

The iPad and headphones are portable and easy to move around your facility to test employees without a hearing booth.
